PRACTICAL PEDIATRICS CME COURSE
Orlando, FL
March 24-26, 2017

FACULTY

Allergy and Immunology
Harvey L. Leo MD, FAAAAI, FAAP
Associate Research Scientist
University of Michigan School of Public Health
Ann Arbor, Michigan

Dermatology
Kimberly A. Horii, MD, FAAD, FAAP
Professor of Pediatrics
University of Missouri-Kansas City School of Medicine
Children's Mercy-Kansas City Division of Dermatology
Kansas City, Missouri

Gastroenterology
Jenifer R. Lightdale, MD, MPH, FAAP
Professor of Pediatrics
University of Massachusetts Medical School
Worcester, Massachusetts

Infectious Diseases
Pretti Jaggi, MD, FAAP
Associate Professor of Pediatrics
Nationwide Children’s Hospital, Columbus
Columbus, Ohio

Neurology
Donald L. Gilbert, MD, MS, FAAN, FAAP
Professor of Pediatrics and Neurology
Program Director, Child Neurology Residency
Director, Transcranial Magnetic Stimulation Laboratory
Director, Movement Disorders and Tourette Syndrome Clinics
Cincinnati Children’s Hospital Medical Center
Cincinnati, Ohio

Otolaryngology
Stacey L. Ishman, MD, MPH, FAAP
Associate Professor of Otolaryngology - Head and Neck Surgery
Cincinnati Children's Hospital Medical Center
Cincinnati, Ohio

Course Director
Todd A. Mahr, MD, FAAP
Clinical Adjunct Professor, Department of Pediatrics
University of Wisconsin School of Medicine and Public Health
Madison, Wisconsin
PRACTICAL PEDIATRICS CME COURSE PLANNING GROUP

The American Academy of Pediatrics (AAP) wishes to thank the following members who have volunteered their time and expertise to guide the development of this educational offering.

Marilyn Augustyn, MD, FAAP  
*Professor of Pediatrics*  
Boston University School of Medicine  
Boston, Massachusetts

Tracy M. Evans-Ramsey, MD, FAAP  
*Private Practice*  
East Bay Pediatrics  
Berkeley, California

Daniel P. Krowchuk, MD, FAAP  
*Professor of Pediatrics and Dermatology*  
Wake Forest School of Medicine  
Winston-Salem, North Carolina

Todd A. Mahr, MD, FAAAAI, FAAP (Chairperson)  
*Clinical Adjunct Professor*  
*Department of Pediatrics*  
University of Wisconsin School of Medicine and Public Health  
Gundersen Health System  
La Crosse, Wisconsin

Dwight A. Powell, MD, FAAP  
*Emeritus Professor, Pediatric Infectious Diseases*  
The Ohio State University College of Medicine  
Nationwide Children's Hospital  
Columbus, Ohio

Richard Schwend, MD, FAAP  
*Professor Orthopaedics and Pediatrics*  
UMKC School of Medicine,  
KU Medical School  
Kansas City, Kansas
MEET YOUR FACULTY FOR THE
PRACTICAL PEDIATRICS CME COURSE – ORLANDO, FL

Harvey L. Leo MD, FAAAAI, FAAP – Allergy and Immunology

Harvey L. Leo, MD obtained a B.S degree from the University of Notre Dame, completed his medical degree at Tulane University School of Medicine, pursed pediatrics residency training at the University of Wisconsin Hospital and Clinics, and completed a pediatric allergy and immunology fellowship at National Jewish Medical and Research Center. He currently is an Associate Research Scientist in the Department of Health Behavior and Education at the University of Michigan School of Public Health and a practicing pediatric allergist and immunologist with Allergy and Immunology Associates of Ann Arbor, PC.

His research interests include investigating the role of community based education to improve individual self management skills utilizing allergic diseases such as pediatric asthma and food allergies as models. Previous projects have included work in China, Ethiopia, and inner city Detroit. Additionally, he investigates the impact of similar education efforts with respect to childhood food allergies in childcare and school settings. This has resulted in work producing management protocols for food allergies with the Center for Disease Control. Dr. Leo is particularly interested in understanding children’s symptom perception using food anaphylaxis and asthma as model systems and applying interventions to improve self management skills.

He has served on the Scientific Advisory Board for the National Eczema Association, a Trustee of National Jewish Health, and as an Advisory Board Member of the Jack Selner Aspen Allergy Conference. He is a member of both the American Academy of Pediatrics Section of Allergy and Immunology and a member of the Health Outcomes, Education, Delivery and Quality Section of the American Academy of Asthma, Allergy, and Immunology.

Kimberly A. Horii, MD, FAAD, FAAP - Dermatology

Dr. Horii earned her Bachelors of Arts from Cornell University and completed medical school at the University of California, Los Angeles School of Medicine. She trained in both Pediatrics and Dermatology at Stanford University and is board certified in Pediatrics, Dermatology, and Pediatric Dermatology. She is Professor of Pediatrics at the University of Missouri, Kansas City School of Medicine where she is a Pediatric Dermatologist in the Division of Dermatology and the Pediatric Dermatology Fellowship Director at Children’s Mercy-Kansas City in Kansas City, Missouri.

Dr. Horii continues to be passionate about teaching. Her clinical and research areas of interest include infantile hemangiomas, atopic dermatitis, and melanocytic lesions. She was a recent member of the executive board of the Section of Dermatology of the American Academy of Pediatrics.

Dr. Horii and her husband have 2 wonderful children who keep them both very busy. She also enjoys traveling and spending time with her family and friends.
Dr. Lightdale is Division Chief of Gastroenterology, Hepatology and Nutrition at UMass Memorial Children’s Medical Center, where she is also Chief Quality Officer. Dr. Lightdale is board certified in Pediatric Gastroenterology, Hepatology and Nutrition. She is a graduate of the Mount Sinai School of Medicine in New York, NY, and completed residency at the University of California in San Francisco, a Post-Graduate Fellowship at the Institute for Health Policy Studies at the University of California, and fellowships in Pediatric Gastroenterology and Health Services Research at Harvard University. Dr. Lightdale received her Master's degree from the Harvard School of Public Health, and is a Professor of Pediatrics at the University of Massachusetts.

Dr. Lightdale has an active clinical practice evaluating and treating infants and children with a broad range of gastrointestinal disorders, especially feeding difficulties and food allergies. She also has advanced expertise in endoscopy. Dr. Lightdale’s overarching professional goal has been to promote quality in the fields of clinical research and pediatric gastroenterology. Her scientific focus has been on improving the safety of procedural sedation for pediatric procedures, including gastrointestinal endoscopy. She has received NIH funding to investigate patient safety and pediatric sedation, and has also received awards from the Risk Management Foundation and the American Society of Gastrointestinal Endoscopy for her work. Dr. Lightdale has served on and chaired many national committees, and lectures extensively. Currently, she is the Chair of the executive committee of the Section on Gastroenterology Hepatology and Nutrition (SOGHN) of the American Academy of Pediatrics (AAP). She is also an active member of the AAP’s NCE Planning Group, where she has enjoyed working to identify opportunities to educate and empower her pediatric colleagues to treat children with common gastrointestinal conditions.

Dr. Lightdale is married to a pediatric cardiologist. She and her husband have two children – ages 12 and 15 – and together, they spend their weekends at horseback riding lessons, baseball games, and walking the family dog, Tuukka.

Dr. Jaggi specializes in pediatric infectious diseases and is the Director of the Antimicrobial Stewardship Program at Nationwide Children’s Hospital in Columbus, Ohio. She is Associate Professor of Pediatrics at The Ohio State University, Columbus, Ohio. Her undergraduate degree was at Miami University in Oxford, Ohio. She earned her medical degree at the Ohio State University, completed pediatric residency at Loyola University Medical Center in the Chicago area, and completed fellowship at Northwestern University, Lurie Children’s Hospital. She is board certified in Pediatrics and in Pediatric Infectious Diseases.

She has been the Director of Antimicrobial Stewardship since 2013 and also has several publications in the area of Kawasaki disease and Adenovirus infections. Dr. Jaggi and her husband, also a physician, have two children. In her spare time, she enjoys hanging out with family, cooking, being active outdoors, reading and travelling.
Donald L. Gilbert, MD, MS, FAAN, FAAP - Neurology

Donald L. Gilbert earned his Bachelor of Arts at Princeton University in philosophy. He subsequently earned his MD at the University of Michigan and spent a year at the National Institutes of Health as a Howard Hughes Medical Institute Research Scholar. Dr. Gilbert did his child neurology residency at Johns Hopkins and is board certified. Dr. Gilbert earned his MS in Clinical Research Design and Statistical Analysis from the University of Michigan. At Cincinnati Children's, Dr. Gilbert directs the Movement Disorders and Tourette Syndrome Clinics, which specialize in evaluation and pharmacologic treatment of tics, chorea, tremor, dystonia, stereotypies, ataxia, and other movement disorders. Dr. Gilbert’s research focuses on non-invasive brain stimulation and methodologies to understand the neural substrate of motor control and disinhibition in order to develop therapeutic strategies for Tourette Syndrome and Attention Deficit Hyperactivity Disorder. He established the Transcranial Magnetic Stimulation laboratory at Cincinnati Children’s in 2001 and has performed numerous studies with National Institutes of Health, foundation, and industry grants. Dr. Gilbert has also been a collaborator or site investigator for multiple NIH-funded studies of genetic and environmental causes of Tourette Syndrome and multiple industry-funded phase 2, phase 3, and post-marketing clinical trials. Dr. Gilbert has published over 120 peer-reviewed papers, chapters, reviews, and commentaries and is a co-author of the first and second editions of Movement Disorders in Childhood and co-editor of the book Pediatric Brain Stimulation: Mapping and Modulating the Developing Brain. Since 2009, Dr. Gilbert has directed the Cincinnati Children’s child neurology residency program, one of the largest in the country.

Stacey L. Ishman, MD, MPH, FAAP - Otolaryngology

Stacey Ishman, MD, MPH is Surgical Director of the Upper Airway Center at the Cincinnati Children’s Hospital Medical Center and Professor with the Divisions of Otolaryngology—Head and Neck Surgery and Pulmonary Medicine. She is also the Director of Otolaryngology Outcomes Research at Cincinnati Children's Hospital Medical Center and Residency Research Director for the Department of Otolaryngology - Head and Neck Surgery at the University of Cincinnati. She earned her medical degree from Rush Medical College and completed a residency in Otolaryngology at the Medical College of Wisconsin. Dr. Ishman then completed a fellowship in pediatric otolaryngology at Johns Hopkins and underwent advanced sleep training after she was a member of the faculty from 2005 through 2013. She served as the Director for the Center for Snoring and Sleep Apnea there. She obtained her MPH from the Johns Hopkins Bloomberg School of Public Health, is board certified in both Otolaryngology – Head and Neck Surgery and Sleep Medicine. She moved to Cincinnati Children’s Hospital Medical Center in and currently serves as the Surgical Director of the Upper Airway Center and is focused on treating children with persistent pediatric sleep apnea and adults with obstructive sleep apnea. Her research is centered on outcomes in adults and children after treatment for OSA. She also serves as the Chair for the Board of Governors and on the Executive Committee of the Board of Directors of the American Academy of Otolaryngology – Head and Neck Surgery. In addition, she is the Chair of the Academy’s General Otolaryngology Education Committee and Vice-President of the International Surgical Sleep Society.
Dr. Todd Mahr is Director of Pediatric Allergy/Immunology at Gundersen Health System in La Crosse, Wisconsin. He is also Adjunct Clinical Professor of Pediatrics at the University of Wisconsin School of Medicine and Public Health in Madison, Wisconsin.

After receiving a Bachelor of Arts degree from Lawrence University in Appleton, Wisconsin, Dr. Mahr obtained his medical degree from the University of Wisconsin Medical School. He completed an internship and residency at Gundersen Medical Foundation, La Crosse Lutheran Hospital, and was a fellow in allergy/immunology at Children’s Memorial Hospital, Northwestern University Medical School, in Chicago, Illinois.

Dr. Mahr belongs to numerous allergy societies, was recently on the Board of Regents of the ACAAI and is Past-President of the Wisconsin Allergy Society. He has been active in the American Academy of Pediatrics, serving on numerous committees and also on the Executive Committee of the Section of Allergy and Immunology of the AAP. He is Chair-Emeritas of the CDC funded Wisconsin Asthma Coalition. He has been on the National Assembly of the American Lung Association, is currently on the Board of the ALA-Upper Midwest and is Past-Chair of ALA-Wisconsin Leadership Board. Dr. Mahr is the recipient of the ALA’s Volunteer of the Year award for the year 2000 and the Wisconsin Department of Health and Family Services “Partners in Public Health” certificate of recognition given November 2007.
